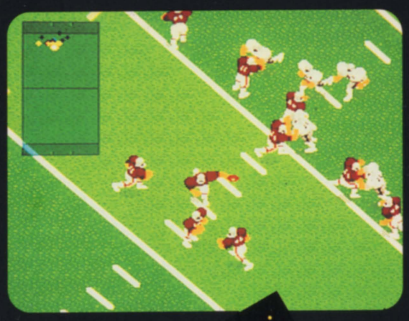
The Super Nintendo Entertainment System® revolution grows. For 1992, Nintendo will turn up the power with more breakthrough, true 16-bit games created to take advantage of this incredible technology. The Super NES has already become the most popular advanced home video game system in the world – just months after its introduction. The revolution continues with Nintendo's first accessory for the Super NES. State-of-the-art action is ready to take on a new dimension!

THE LEGEND OF ZELDA® – A LINK TO THE PAST™
One of the most awaited sequels Nintendo has ever created! The traps are more intricate! The puzzles are more complex! The adventure and action reach new heights as you explore incredible palaces, deep dungeons and ancient forests to solve the mysteries of the Dark World! The Super NES brings the realm of Hyrule to life like never before, as Link's ancestor must match his skill and prowess against the evil wizard! Fans of the NES Zelda games will be waiting in line to experience the ultimate adventure of their hero!

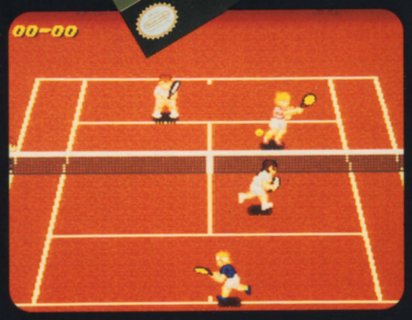
SUPER PLAY ACTION FOOTBALL™ 1
Here at last is football action as real as it can be. Players choose from real NFL teams, college teams, even high school teams! The frenzy begins as you develop strategies for offense and defense that will take your team to the top of the rankings! The Super NES recreates the look, speed and sound of the game, with great close-ups of the action for every play you run, plus a complete view of the field through our exclusive window! Perfect for players at every level, and provides great two-player action! Play hard, play smart and you just might find yourself first-and-goal with 10 seconds left to take it all in the Super Bowl!

SUPER SCOPE 6™

Breakthrough design and incredible pin-point accuracy make the Super Scope 6 the hot new accessory for the Super NES! The Super Scope 6 allows players to play from anywhere in the room without wires, while the custom-designed infra-red relay automatically calibrates the system to any size TV screen. Included with the Super Scope 6 is a special game pak featuring six completely separate games – space adventures, target shooting and puzzle games. Put them all together and you're just beginning



SUPER TENNIS[2]
Super Tennis captures the speed, power and challenge of tennis in every way you can imagine. Check out the surfaces — grass, clay or hard courts. Check out the competition — singles or doubles. Check out your shots — forehand, backhand, lob, slice, spin and slam! Challenge a friend to play one on one or team up and take on the Super NES. If tournament play is your style, play against a field of 20 men or 20 women players, each with different strengths and weaknesses. It's just you against the world circuit, brought to you by the advanced technology of the Super NES! No matter what style of play you choose, Super Tennis is super sports action!



SUPER SOCCER[3]
Realistic, arcade-style soccer action starts as you select one of 16 national teams! Challenge a friend to play that rivals the real thing! Now, enter the finest stadiums of Europe!

Battle with the best during an exhibition game! Or enter a world tournament that leads to the Nintendo Cup! Choose defensive or offensive strategies, then select your formations. The ultra-fine control offered by the Super NES gives you a real feel for the game! Plus the screen scrolls and rotates from your player's perspective on the field! Great graphics. Great action. What the Super NES does for football, it now does for soccer!

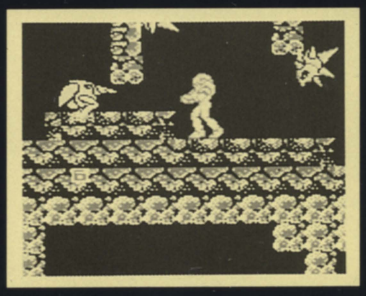
to see the challenge and excitement that comes from adding the Super Scope 6 to the incredible graphics, sound, speed and realism of the Super Nintendo Entertainment System! Great value! Great action! There's simply nothing else like it!

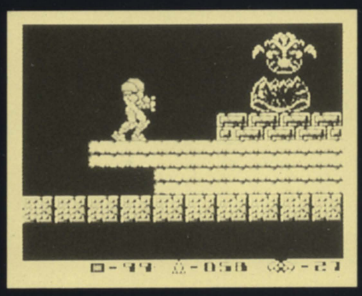
GAME BOY®

Game Boy stays hot with two new adventures that add to the Game Boy game library of over 150 titles. These new titles will change the definition of portable power!

Imagine all new game perspectives and dangerous, multi-level alien worlds, all in the palm of your hand!

These new games prove the creative potential of Game Boy matches the sales potential. Game Boy – its appeal is as limitless as the imagination!





METROID II:® RETURN OF SAMUS™
This great sequel is bigger than the NES classic! Metroid II is sci-fi action at its best! The sinister planet SR-388 is filled with cavernous corridors, ancient ruins and intricate alien traps, alive with merciless enemies that have only one goal – to dominate the Galaxy! Samus Aran must find artifacts of an ancient civilization, artifacts that will bestow incredible powers to aid in the fight to reach the source of this menace and exterminate the Metroids. Incredibly complex, Metroid II offers players the ability to save their progress as they search for the best of several super endings!
